PathologyWatch

Sonic Healthcare

The road to digital transformation is easier than you think.

Our Mission

To preserve and extend life for patients while reducing the cost of healthcare.

Our Purpose

PathologyWatch is the groundbreaking leader of digital dermatopathology services.

Through these services, dermatology clinics, hospitals, and laboratories can improve operational efficiency by speeding up workflow and enhancing patient outcomes by utilizing the PathologyWatch expert professional team and partner laboratory services.

Today's patient care needs digital technology for efficient workflow, faster turnaround times on lab results, and more accessibility to expertise and remote care. But where do you start?

Our Services

PathologyWatch combines the expertise and cutting-edge technology of an academic center with the efficiency and customer service of a private lab.

40%
more efficient workflow

50%
faster turnaround time

24/7
access to digital slides

Expert dermatopathologists

Locum tenens

Reduce staff burden

Case Study Samples

Cedars-Sinai
Academic medical center

Problem
Pricing, marketing, and staffing

Solution
Partnering with PathologyWatch helped Cedars-Sinai avoid costs associated with expensive equipment and staff and increase its business opportunities. Our technology can reduce your workflow processes by up to 40%.

"PathologyWatch has brought a uniquely effective approach to business development, digital slide reading, and client access to our hospital-based business."

Bonnie Balzer
Anatomic Pathology Dermatopathologist

Vivida Dermatology
Large dermatology group practice,
15 providers, multiclinic

Problem
Billing and insurance processing

Solution
PathologyWatch provides consistent quality reporting and easy integration with EMR systems for more accurate billing services and account management. More than 89% of all hospitals have implemented inpatient or ambulatory EMR systems.

"This is revolutionary in many ways. The goal of providing a quality product with a lot more accuracy and a lot less human error is inspiring. It's something we need."

Michael Borenstein
Chief Operating Officer

Riverside Medical Arts
Dermatology group

Problem
No EMR interface and long turnaround times

Solution
PathologyWatch generated 75% faster lab results, meaning turnaround time dropped from two weeks to two days.

"Using PathologyWatch gets rid of the headaches of mailing glass slides back and forth and tracking down faxed results. They're also easy to reach and are responsive to patient billing issues."

Mykala Herben
Clinical Supervisor

Northern Utah Dermatology
Solo practice, three providers, multiclinic

Problem
Poor insurance plans and no EMR guidance

Solution
In addition to greater insurance coverage, the staff received personalized training to understand the benefits and shortcuts in the EMR system.

"PathologyWatch has been really easy to work with. Knowing we're so well taken care of has taken the stress off of the staff's shoulders. The open lines of communication have made my job easier."

Hailey Clontz
Lead Medical Assistant
